

On Sunday, September 18, 2022, the monthly meeting of the Atlanta Audio Club was held at the Dunwoody North Driving Club clubhouse. This meeting was a “trifecta” featuring vintage equipment displays, home-built or modified equipment displays, and the ability to buy or sell audio and video equipment. The displays were all set up by individual members who wanted to show their equipment or possibly sell or trade their equipment. There were about 25 to 30 attendees throughout the afternoon. The show ended around 5 pm.

Steve Gooding introduced each display table and then the member at the table described the equipment being shown. There were five tables with working systems that the folks present could listen to. One table had the original “Large Advent” speakers. Another table had the new Emotiva Airmotiv B1+ bookshelf speakers. Another table had a vintage tube tape recorder which the presenter used as an electric guitar amplifier. One member brought a pro-level VHS recorder which he gave to another member so it could be actually used. There was a vintage Scott FM tuner shown. This secretary did not note all the pieces being shown, but there was a lot of interesting items to see and hear!

Tom Horner brought several more boxes of classical and non-classical CD’s for anyone to pick up and keep, as many as they wanted. During the meeting many were taken by the people present for their collection. The classical CD’s are from the collection of Dr. Phil Muse (our classical reviewer) which he had reviewed in the past. Tom has several more boxes to distribute to attendees in his basement, so he will be doing so during upcoming club meetings. He also brought a pair of used speaker cables by SoundString that were given away to the member who took the most CD’s home.

The club sincerely thanks all of our presenters for bringing their equipment to the clubhouse for us to see and enjoy. Also, thanks again to the Refreshment Director, Dan Wittmayer and his assistant for setting up some excellent snacks and drinks.

Minutes written by Thomas Horner, Secretary, Atlanta Audio Club.
